A City for the Future

Today I will learn to say what my town will be like in thirty years – what will surely change and what only might – and to design a town I'd like to live in.

- I can say what is sure and what is only possible: *will, will probably, might*.
- I say ***There*** *will be more parks* – not *Will be more parks*.
- *probably* goes after *will* but before *won't*.
- I can make a suggestion and answer my partner's.
- I can present our project in a few sentences.
